

APPLEDORE & INSTOW FERRY REPORT FOR TTEF 20th OCTOBER 2025

This report covers the months of July, August and September.

July was a great month with takings over £1000 up on the same month last year. One 3 hour shift took nearly £500 with one ferry. The best day was 30th with two ferries taking £657! The best day in August took £888.

Sadly the Company has said goodbye to Chris Northrop, long time Skipper and Director of Operations. The success of the ferry is in no small measure to his commitment and unstinting time given to maintaining the boats. Chris has also been the Ferry Rep on TTEF. Many thanks, Chris! Hopefully we will see you again.

Ferries are now having to exercise even greater caution with ships Of nearly 100 metres carrying animal feed entering the port on spring tides to dock in Appledore.

The ferry ceases operations this year on Saturday, 18th October.

The Ferry is run entirely by volunteers and new faces are always welcome. No experience is necessary as full training for roles ashore and afloat will be given. Check the website for more information.
